

To whom it may concern,

Following your request to engage in environmental sampling activities on the Nature Reserve, created by deliberation no. 2015.1013.SP of the Regional Council of Aquitaine, we would like to remind you of the following:

- Vehicles must remain parked at the entrance.
- Pedestrians are only permitted on the paths both indicated on the map attached to this email and the entrance signs. Please be aware of the risk of rockfalls and falls (scree slopes, cliffs, quarry faces). Failure to comply may result in liability and constitutes a violation of regulations.
- Sampling or collecting fossils or rocks is only permitted for scientific purposes. Your request will be reviewed by the site manager and the lead scientist. Will be taken into account both the site sensitivity and the relevance of your request, considering the available literature and research.
- Regular updates will need to be provided regarding the research and its publication.
- The samples will be returned to the reserve manager.

To track site usage, for each group, please provide us with the following information:

- Date of visit
- Number of supervisors
- Number of children
- Number of adults
- Number of people encountered

Please find attached the Reserve regulation.

We hope you enjoy your visit.

Sincerely,

The Co-Managers
